

Project Surveyor

Are you a professional land surveyor looking to join a dynamic team? Then consider these exciting opportunities with the Ministry of Transportation, Geomatics Northeast section and Geomatics West section, where you will manage legal and engineering surveys.

What can I expect to do in this role?

In this role, you will:

- provide advice, supervision and technical direction to service providers and team staff on the production of legal and engineering surveys
- schedule and manage service provider assignments and participate on teams as a survey expert
- consult with various stakeholders and agencies to assess and resolve complex problems and exchange of information

Location: North Bay and London

How do I qualify?

Mandatory

- You must be a licensed member (Cadastral) of the Association of Ontario Land Surveyors
- The position requires the successful candidate to have a valid class G driver's licence or equivalent. The offer of employment is conditional upon the successful candidate providing proof that s/he has a valid driver's licence upon being hired.

Technical Knowledge:

You have:

- knowledge of theories, principles and production of engineering and legal surveys and plans, federal and provincial statutes and regulations to plan, supervise and direct the production of engineering and legal surveys
- knowledge of survey equipment and software such as total stations, data collectors, global positioning receivers, Global Navigation Satellite Systems (GNSS), Light Detection and Ranging (LDAR) systems, Remotely Piloted Aerial Systems (RPAS), sonar, Geographic Information Systems (GIS) and high-tech precise levels to carry out survey work
- knowledge of policies, procedures, standards and statutes and regulations related to highway jurisdiction, land registration, expropriation, acquisition and disposal of property
- knowledge of, and experience with, the Occupational Health and Safety Act (e.g., applicable rules while working along busy transportation corridors) to ensure ministry staff and consultant work is performed in compliance with the Act, its regulations, and the safety policies and procedures of the ministry

Project Management Skills:

You have:

- project management skills to plan, organize and manage the work of staff and consultants, and assess completeness and acceptability of work assignments

Communication, Analytical, Problem-Solving and Interpersonal Skills:

You have:

- oral and written communication skills to communicate with internal and external clients, and contactors; to develop ministry survey standards, procedures and guidelines; to prepare service provider acquisition documents; and to present accurate information and testimony on legal survey matters at board/court hearings
- analytical, and problem-solving skills and sound judgement to deal with complex or problematic situations; to review and interpret survey evidence, statute and case law; and to research internal and external information sources to compile data necessary for survey projects

Salary Range: \$77,999 - \$106,493 Per Year

Additional information:

- 1 Permanent, 447 McKeown Ave, North Bay, North Region

- 1 Permanent, 659 Exeter Rd, London, West Region
