

Job Description

Monument Geomatics is set to grow again in 2021. Our Construction Surveying Firm is quietly making a name for ourselves in the Civil Construction and Engineering industry in South Central Ontario and we have projects lined up to begin strong in the new year.

We are looking for a qualified Ontario Land Surveyor licensed by AOLS to join our team and be part of our early successes and future growth. This is an excellent opportunity for someone looking to start something new or a fresh start with an up and coming company. A future partnership opportunity can be discussed and is a possibility for the right candidate.

Responsibilities

- Ensure all projects meet or exceed industry standards and client expectations
- Exercise quality control on all deliverables and lead project teams within time and budget constraints
- Manage legal and engineering surveys
- Provide professional and technical advice
- Certify legal plans and documents

Immediate Scope of work

- Record & As-Built Drawings
- Topographic Survey Plans
- Site Plans
- Land Development and Construction Projects
- Environmental and Remediation Projects

Experience & Key Attributes

- 5+ years preferred
- Project Management experience at any level would be considered a plus
- We are looking for a great team member who will work effectively and competently with our clients as well as coworkers
- Ability to work independently without supervision
- Strong time management and organization skills
- Attention to detail and a positive attitude

Competitive Salary based on industry standards and candidate experience.

Successful candidates must be able to pass a police background check and obtain security clearance.

Please email your resume along with cover letter to info@monumentge.com
